

Lehigh University College of Education
FORMATIVE TEACHER CANDIDATE EVALUATION FORM

Teacher cand.: Tricia Wilson Subj. & Grade Level: 8th Gr. Math Observation # Final
Observer: Sarah Snell Date: 4/8/11

Instructions: This form should be used each time a teacher candidate is observed (3 times by mentor teacher and 3 times by LU supervisor). These assessments provide justification for mid-point and end-of-internship ratings on the summative PDE430 form. Check the cell for the appropriate rating for every indicator in each of the four categories. Please also supply more detailed feedback under "comments" and "areas for improvement." Note that the left column indicates Pennsylvania Department of Education Category (PDE430 form) addressed by the indicator.

Rating Key: With regard to the particular indicator, the teacher candidate...

Exemplary ...thoroughly understands the concepts and implements them consistently.

Superior ...usually understands the concepts and implements them extensively, but not always.

Satisfactory ...sometimes understands the concepts and implements them adequately.

Unsatisfactory ...superficially understands the concepts and/or implements them inappropriately.

NA = during this particular observation the context made this indicator irrelevant (for example, because no students were off task no need to redirect, or that day's lesson did not call for a particular pedagogical strategy).
